Date: Nov 5, 2023

Festival Greetings!

Dasara is behind us, and we're eagerly waiting for Deepavali! We extend festival greetings to all and wish that the festival of light brings brightness into everyone's lives.

Health Advisory

We've noticed a spike in belgaum in cases of Viral Hepatitis and atypical pneumonia. To stay healthy, please avoid eating street food, drink boiled water, and consume cooked food.

What We Did

We've been consistently performing laparoscopic surgeries, including procedures for Hernia and appendicitis. Our dedicated team has successfully treated patients with conditions such as Hepatitis, Alcoholic liver disease, hernia, and ruptured appendix, among others. We are committed to continuously improving our services and expanding our reach to serve our patients better.

Free Health Checkup Camp

In our ongoing efforts to support the community, we recently conducted a free health check-up camp, with a special focus on Liver Health, on October 28, 2023. Many people from the Belagavi benefited from this camp.

Upcoming Events

We have planned multiple Health Check-up Camps in the days to come. Our aim is to integrate preventive care and education to benefit the masses during these camps.

On a Personal Note

We had a beautiful Dasara Celebration at the hospital, complete with Ayudha Pooja, where we prayed for the welfare of all. On a personal level, Dr. Kishor V Bandagar recommends the book "Getting Things Done: The Art of Stress-free

Productivity" by David Allen. It's a must-read for those who are obsessed with efficiency and productivity.

With your continued cooperation and blessings, we aim to scale greater heights in the service of society.

Keep healthy!

Dr. Kishor V Bandagar
MS, General and Laparoscopic Surgeon
